Seizure Disorders

Secondary Concerns

Behavior Problem
Acute Exacerbation of Chronic Disorder
Indwelling Catheter

**** PHYSICIANS PLEASE TAKE NOTE: If approving for Hippotherapy, a signature is REQUIRED in BOTH boxes below. ****

Physician's Statement for All Participants:

To my knowledge there is no reason why this person cannot participate in supervised equestrian activities. I understand that the PATH center will weigh the medical information given against the existing precautions and contraindications. Therefore, I refer this person to the PATH center for ongoing evaluation to determine eligibility for participation.

Physician's Name (Please Print): _____ Phone: _____

Physician's Signature: _____ Date: _____

Address: _____
Street City State Zip

Prescription for Hippotherapy Participants Only:

Prescription for occupational, speech therapy, and physical therapy utilizing hippotherapy as a therapeutic strategy. Functional goals will integrate improvement with balance, strength, posture, communication, and activities of daily living.

Physician's Signature: _____ Physician's Name: _____

* Hippotherapy Balanced Rider has fair sitting balance and does not need upper extremity support or external support to maintain posture when the horse is moving. This is subject to therapist/instructor's discretion.

* Recreational Riding Balanced Rider shows flexibility, strength, posture and the ability to change their weight distribution on the horse as needed. This is subject to therapist/instructor's discretion.
